Venus... Mercury... um... Mars?!

A “mnemonic” is a device to help remember something. The order of notes on the lines of a treble clef staff in music are: E, G, B, D, F, which many music students learn as:

“Every Good Boy Does Fine”.

Before Pluto was demoted, a number of folks learned the order of the planets as:

“My Very Excellent Mother Just Sent Us Nine Pizzas”.

Listed below are three more current renditions:

- Most Value Ersatz Mneomics Juxtaposing Some Useless Nonsense
- Many Voted Eight Meaning Just Slightly Under Nine
- Make Vulgar, Embarrassing, Monotonous Jokes Saying "Uranus". Not.
- My Very Excellent Mother Just Served Us Nachos

Your mission is to come up with three mnemonics of your own to help your classmates (and you) remember the order of the eight planets.
